

## How to submit a paper in IJIS and to ICIS2017

The IJIS submission website is constructed by Thomson Reuters, which has a consistent outlook for all its journals. Thus, if you have submitted a paper to a journal under Thomson Reuters, you may find the process quite similar with before. However, if you haven't tried yet, please take the following stages:

1. Enter the webpage <https://mc03.manuscriptcentral.com/ijis>
2. Get registered here with your most frequently used email

3. Log in with your username and passwords
4. Click the left side button to find the hidden bar, and then click "Author"

Or click "Author" directly from the homepage:

5. Begin submission by following the instructions

### Start New Submission

METHOD	DESCRIPTION	START
Traditional Submission	Traditional submission allows you to upload files that were created from many sources.	<a href="#">Begin Submission</a>

6. In the 1<sup>st</sup> stage, choose the category of submission you want to process. If you only want to submit a paper to the *International Journal of Innovation Studies (IJIS)*, then choose "Original Article". If you want to submit a paper to The International Conference on Innovation Studies (ICIS2017), please choose the last option.

You can either submit the same paper as to the IJIS, or a new paper to the conference, because the conference is to be held quite late. In fact, in the early stage the full paper is not required, and you can only submit an extended abstract (ca. 1000 words) for us to judge. The full paper shall be submitted before May 1, 2017.
